# Fitness Class Intensity Levels

---

**Intensity Level - 1 (Daily Activity)** - Activities are low-intensity and easy to perform. Some examples are making the bed, gardening, vacuuming or dusting, walking slowly, golfing with a power cart, or doing light stretching.

**Intensity Level - 2 (Base)** - Activities are moderate, slightly uncomfortable, and cause you to sweat a little. Some examples are biking, walking briskly, golfing while pulling or carrying clubs, recreational swimming, weight lifting, mowing the lawn with a power mower, or scrubbing floors or windows.

**Intensity Level - 3 (Heart Health)** - Activities are vigorous. A person can still talk, but it takes quite a bit of effort. Most of the activities at this level are intentionally planned. Some examples are brisk walking, jogging, swimming laps, or circuit training.
